

San Francisco's favorite full-service daylight photo studios

## LUX-SF STUDIOS TRANSIT & LOADING

(Please refer to map on following page)

LUX-SF is easily accessible by car, bike, Muni, or Caltrain. Our front entrance is at 2325 3<sup>rd</sup> St. The street door is **unlocked** from 7AM to 6PM Monday-Saturday. Take the elevator to the 3<sup>rd</sup> floor (not 3R), and proceed down the hall, keeping to your right, and continuing to the end of the longest hallway. We are fully wheelchair accessible, and available at all times to assist with any access issues.

### PARKING

Our reserved parking is located at the back of the building by 960 Illinois St., in stall #51- look for the large LUX-SF sign on the rear wall. Our tandem parking accommodates up to three vehicles, depending on size. One spot is included with the rental of each studio. Please allocate your spot or spots among your team prior to the day of your shoot. Stall #51 is conveniently located next to the loading dock and freight elevator for loading of all gear, merch, sets, etc., and is ideally located for grip truck or prop van parking. Please note that there are 2 stalls in that area, and we **only** have the one by the free motorcycle parking, and not the one next to the wall.

Free, unlimited street parking is available on Illinois St. between 20<sup>th</sup> and 22<sup>nd</sup> Sts., and on many of the surrounding blocks. These spots tend to fill up by 7 AM every day except Sunday.

Additional paid parking is available Monday-Saturday for \$11/day, or \$7 for up to 2 hours, in the IMPARK lot behind our building at 901 Illinois St. The entrance is located just across the street from the 960 Illinois St. loading dock.

We advise that talent and clients enter through our main building entrance at 2325 3<sup>rd</sup> St. Access through 960 Illinois St. is primarily for crew and loading.

### LOADING DOCK & FREIGHT ELEVATOR

Our primary loading dock is located at 960 Illinois St. The freight elevator inside measures 7'2" wide x 10'8" deep; its doorway is 8'6" high, and the ceiling is 10'. There is also a stairway through the door just beyond the elevator that leads up to the 3<sup>rd</sup> floor.

We have a second loading dock and freight elevator at 948 Illinois St. should the primary be occupied or out of order; it arrives approximately 100' up the hallway from us on floor 3.

The loading dock overhead door is locked from 6PM-7AM Monday through Saturday, and closed all day Sunday and on federal holidays. Arrangements can be made to keep these doors open beyond these hours.

### SUNDAYS, EVENINGS AND HOLIDAYS

Dial 089 on the keypad at 2325 3<sup>rd</sup> St. Listen for the "click" that indicates the door is unlocked. Inside the studio, the pink princess phone will ring when 089 is dialed at the front door. Press "6" to unlock the front door.
